

The Disability Cell of our college keeps close contact with the Department of Empowerment of Persons with Disabilities (DEPwD), which is a governmental body in India dedicated to promoting the rights and well-being of individuals with disabilities. Established under the Ministry of Social Justice and Empowerment, DEPwD plays a pivotal role in formulating policies, programs, and initiatives aimed at fostering inclusivity, accessibility, and empowerment for persons with disabilities (PWDs) across the nation. DEPwD's mandate encompasses various aspects of disability empowerment, including education, employment, social security, accessibility, and rehabilitation. Through its initiatives, DEPwD strives to enhance opportunities for PWDs to participate actively in societal, economic, and cultural spheres, thereby ensuring their full integration and contribution to national development. Disability cell has taken active part in empowerment of physically challenged persons. It has taken some positive steps in creating facilities for disabled persons, which includes wheel chairs, Tactile Ramp, Braille Books, Talking Computers etc.
